x3Launch Whitepaper

About x3Launch

x3Launch is a **directoapp** partner and launchpad for global Blockchain projects, and communities to offer token and NFT presale. x3Launch mission is to create an equality driven environment for unrecognized projects to gain early community support. A digital accelerator without the press of a firm expressing uninterest. x3Launch is a do it yourself Launchpad for fewer the cost but with more reach. We value the future of Blockchain, and understand there are some great projects in all forms which may add to the world we live in today, and beyond. One project may be impactful to bring positive change to help so many people. x3Launch is leading the way for all Blockchain creatives, and everyone who wants to support really cool projects.

x3Launch launchpad has partnered with Web3 freelance marketplace and social community platform, directoapp. The partnership will help x3Launch projects build communities, discover to keep building in one ecosystem. No more jumping between multiple social networks and platforms to build your community. x3Launch will be the main launchpad for the directoapp social community, an all-in-one environment for projects to thrive.

Our mission is to keep a simple ecosystem, an one in all stop shop to discover, build and to support the Blockchain community. We are the game changers of the world!

What is $DRTP?

The **$DRTP** is a Utility token used in the **directoapp** multi-platform ecosystem, which consists of three phases, the freelance marketplace, social community and Application program integration. directoapp is a Web3 company building in the freelance market and social community, offering seamless Decentralized services in over 175 countries. $DRTP use case is included in directoapp interlace multi-platforms. **https://directoapp.com**

directoapp platform

Phase one: Freelance Marketplace **2022**

Phase two: Social Community **2023**

Phase three: Application Programming Integration **2024**

What is directoapp?

directoapp is an advanced Web3 open freelance marketplace and social community platform. An ecosystem designed to enhance freelance workforce equality, international pay without barriers, and social blockchain community engagement. directoapp freelance marketplace is an inclusive Decentralized platform, opening revenue streams in underprivileged countries, and providing quality service to bring ideas to life. Shoppers and service providers retain control of their privacy, and data while paying fewer fees. directoapp freelance marketplace fees are up to 40% fewer, compared to centralized competitors. We believe in giving back to our community, allowing fair international pay for global freelancers to earn more. directoapp ecosystem does not require a third-party intermediary. directoapp tools and services provide our community members to shop, sell, collaborate, and discover to excel in their ideas with quality-driven support.

X3Launch partnered with directoapp to ensure the circulation of the $DRTP ecosystem. We have created a long lasting project with value and real Utility. The $DRTP digit asset may be used for fees in the multi-platform environment. We have bridged the directoapp social community with the x3Launch launchpad to accelerate Blockchain.

The old method is to build a community on a social platform, then gather your peers from the social networks to transition to your presale. We have a partnership where we have our social community block in the directoapp application. Our projects will now beagle to build community from one ecosystem where directoapp pulls community engagement. Create, build awareness and offer presale in one environment. The future is now!

$DRTP Tokenomics

$DRTP is a BEP20 token in the Binance Smart Chain Network.

100 billion - Total Supply

5 Billion - Pre-Sale Allocation

10 Billion - Burned (500 million per year, subject to increase but not decrease) for minum 5 years

40 Billion - Allocated for sale

10 Billion - Team and development/giveaways

40 Billion - Locked

$DRTP Presale Events are broken into three three rounds. Please see the details below.

Early Holder Incentives

The directoapp and x3Launch team have created an incentive for all early holders who help us achieve our targeted goals. We are giving back to our community in BUSD. We will select random $DRTP holders to distribute the funds to. When you receive after we achieve our goals, you must announce your twitter so we can retweet your rewards.

Tier 1: Above 400 BNB: 1,000 each in BUSD to five $DRTP holders a 5,000 USD value

Tier 2: Above 800 BNB: 2,000 each in BUSD to eight $DRTP holders a 16,000 USD value

Tier 3: Above 1200 BNB: 3,000 each in BUSD to twelve $DRTP holders a 36,000 USD value

Tier 4: Above 1800 BNB: 4,000 in BUSD to ten $DRTP holders a 40,000 USD value

Tier 5: Above 2000 BNB: 10,000 in BUSD to six $DRTP holders a 60,000 USD value

Anything past tier five (2000 BNB) will qualify as tier five

Only one qualifying reward will be selected based on the overall funding goal achieved. Upon each tier, the lower qualifying tier will no longer be valid. Example, when $DRTP reaches the third tier, the first and second do not count and nothing above the third tier. If tier five is reached, then the below tiers will not count, only tier five.
